Connected Agri-Dealership Platform & Partner Guide

Holatractor Srl / Inc. is the premier Latin American agricultural machinery operating system. We unite tractor manufacturers, regional franchise dealerships, implement workshops, and commercial farmers into a single telematics-powered digital ecosystem. Scale dealership revenue, reduce credit risk with remote GPS ignition immobilization, automate parts inventory, and dispatch mechanics autonomously.

Dealership Partner Summary & Corporate Verification

Company Entity	Holatractor Srl / Holatractor Inc. (Agri-Technologies Latin America)
Regional Headquarters	Av. San Martín 1550, Equipetrol Norte, Santa Cruz de la Sierra, Bolivia
Platform Scope	Store Operations, Fleet GPS, Farmer CRM, Leads, AI Agents, Maintenance & Parts
Direct Contact	dealers@holatractor.com | Tel: +591 3 345-8900 | WhatsApp: +591 77613811
Online Partner Portal	https://holatractor.com/dealers — Instant Dealership Verification

Comprehensive Platform Feature Directory & Roadmap

1. Store & Multi-Branch Management Locations, showrooms & operating hours	**7. Omnichannel Marketing Campaigns** Meta ads, WhatsApp broadcasts & field camps
2. Add Tractors & Implements in Store Cataloging, BLE tagging & specs matching	**8. AI Agent Workflows & Auto Dispatch** 24/7 autonomous diagnostics & scheduling
3. Real-Time Fleet & Satellite GPS Live map, geofencing & ignition lock	**9. Telematics Notifications & DTC Alarms** Instant multi-tier fault alerts & thresholds
4. Farmer Customer Directory & Profiles Land records, machinery ledger & history	**10. Parts Inventory & Scheduled Maintenance** Consumables, 250h-1000h tiers & barcode QR
5. Customer Support & Feedback Loop SLA ticketing, ratings & dispute escrow	**11. Mechanics & Workshop Bay Tracking** Field technicians, certifications & GPS routes
6. Inbound Lead & Conversion Funnels Sales velocity, lease scoring & win analytics	**12. Custom REST API & Terms and Conditions** ERP sync, webhooks, SLAs & partner contract

Executive Overview: The Connected Dealership Dashboard

Modern agricultural equipment retail requires an all-in-one command center. Holatractor's flagship Dealer Dashboard unifies customer records, machinery leases, sales lead funnels, and workshop telemetry into an intuitive, real-time interface. Dealership managers monitor working hours, customer progress, and pending support tickets without navigating disparate legacy databases.

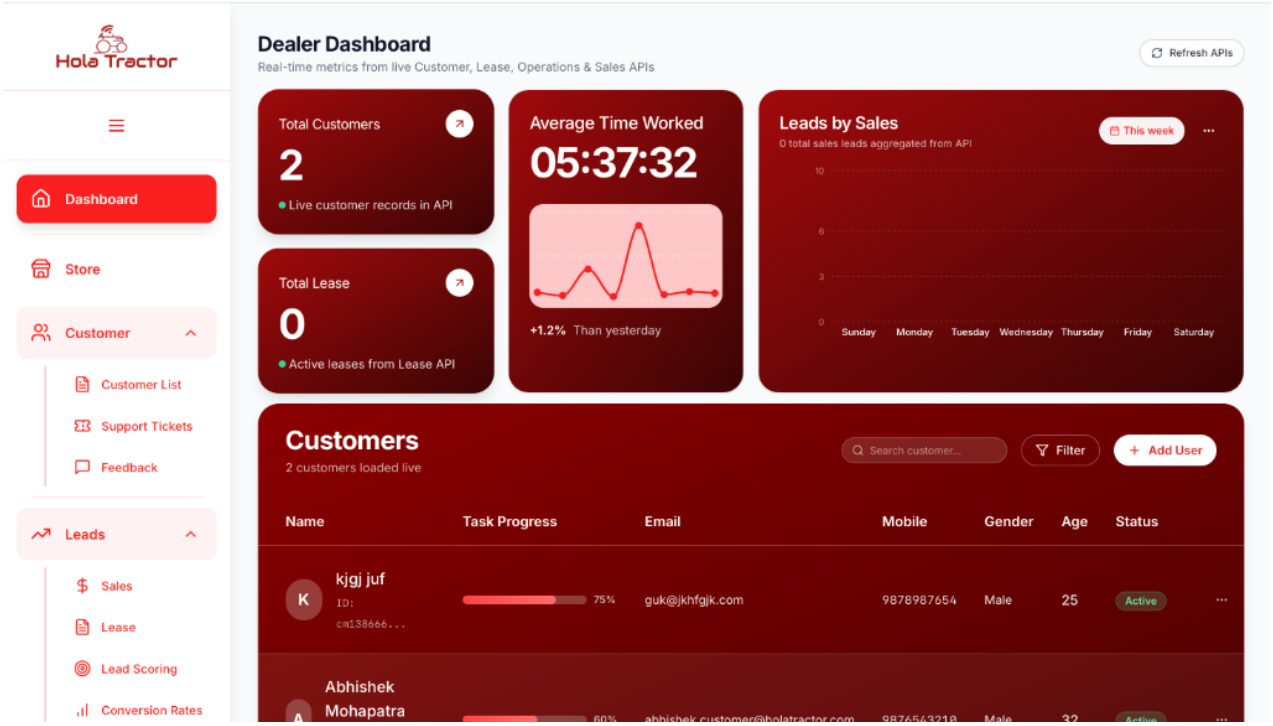

Figure 2.1: Live Dealer Dashboard — Real-time metrics from live Customer, Lease, Operations & Sales APIs.

Core Operational Modules at a Glance

Command Module	Real-Time Telemetry Feed	Business Impact for Dealers
Live Customer Roster	Total active accounts, tractor count per farmer, outstanding lease obligations.	Zero default risk; automated payment reconciliation.
Working Hours Telemetry	Real-time average working duration (e.g., 05:37:32), +1.2% daily trend.	Verify equipment lease utilization & prevent abuse.
Weekly Sales Lead Funnel	Aggregated API sales leads across 7-day cyclical calendar.	Predictive machinery inventory restocking.

1. Store & Multi-Branch Dealership Management

Holatractor enables dealership groups to coordinate multiple regional branch showrooms, allocate machinery inventory, and synchronize operating schedules from one unified cloud dashboard. Whether you operate a single flagship showroom in Santa Cruz or multiple regional distribution hubs across the state, the Store Management engine guarantees complete operational control and inventory visibility.

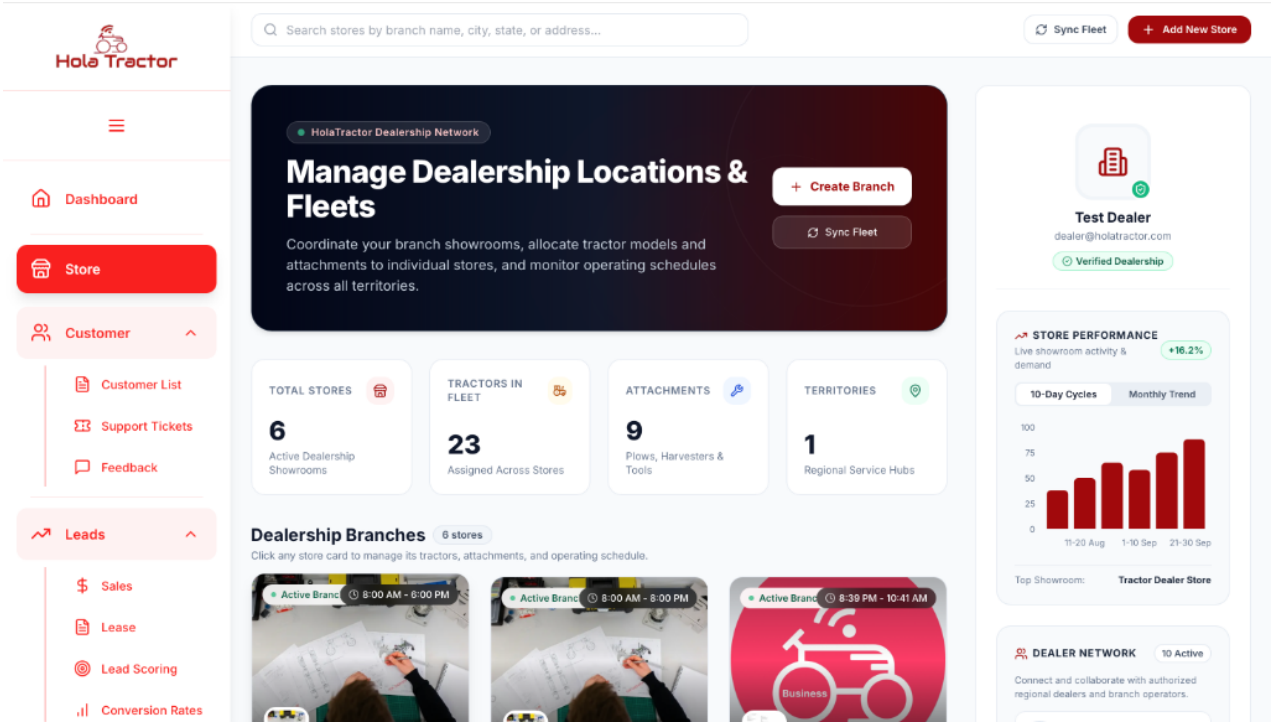

Figure 3.1: Dealership Branch Manager — 6 active showrooms, 23 fleet units, and 10-day demand cycles.

Regional Showroom Orchestration Capabilities

Branch Management Feature	System Functionality	Regional Coverage
Multi-Location Inventory	Track which showroom currently holds specific tractor models (Kioti PX, Farmall, 6M).	Santa Cruz, Montero, San Ignacio, Cuatro Cañadas
Operating Schedules & Shifts	Configure localized showroom hours (e.g., 8:00 AM - 6:00 PM) and emergency night-shift coverage.	Synchronized with farmer mobile app directory
Fleet Transfer Coordination	Initiate internal asset transfers between branches with automated bill of lading generation.	Instant BLE tag reassignment upon arrival

Confidential • Holatractor Srl / Inc. • All Rights Reserved

2. Add Tractors & Implements in Store

Dealerships can catalog and publish new and certified pre-owned tractors, harvesters, and specialized implements in under 3 minutes. Each asset is registered with its VIN, horsepower rating, hydraulic specifications, and paired Bluetooth Low Energy (BLE) asset beacon. Farmers searching by municipality can immediately inspect availability, schedule field demonstrations, or apply for in-house dealership financing.

Asset Category	Typical Machinery & Models	Telematics & Beacon Pairing	Dealership Revenue Model
4WD High-HP Tractors	Kioti PX Series (93-110 HP), John Deere 6M, Case IH Farmall	CAN-bus Hardwired Telematics (OBD-II / J1939 + GPS)	Unit Sale + 3-Year Telematics Service Contract
Soil Implements & Seeders	Heavy Disc Plows, Subsoilers, Pneumatic Planters	Solar BLE Beacon (Acreage & Hectares Counter)	Implement Bundle Margin + Wear Part Replacement
Crop Protection & Sprayers	Self-propelled & Trailed Boom Sprayers	Nozzle Flow Sensors + GPS Swath Tracking	Chemical Compatibility Subscription & Spares
Harvesting Equipment	Combine Harvesters, Grain Carts & Headers	Engine Load Telemetry + Grain Loss Sensor Kit	Seasonal Lease Commission + Emergency Field SLA

Onboarding Protocol for Dealership Inventory

1. **Digital Asset Registration:** The dealership technician inputs the tractor VIN, serial number, and factory specifications into the portal.
2. **Hardware Activation:** Connect the Holatractor CAN-bus telematics gateway to the vehicle's diagnostic harness. The unit runs a self-test and pairs in under 60 seconds.
3. **Implement Pairing:** Attach a weather-sealed BLE beacon to plows, harrows, and seeders. The beacon automatically links to the tractor when hitched.
4. **Instant Marketplace Publishing:** With one click, the asset appears on the Holatractor regional buyer network with live showroom availability and financing estimates.

3. Real-Time Fleet Management & Satellite GPS Tracking

Tractors sold on credit, financing, or operational lease represent substantial capital exposure. The Holatractor Fleet Map Tracker gives dealerships continuous real-time satellite visibility over every machine in their network. Dealers monitor engine run hours, battery voltage, operational status (optimal vs breakdown), and geographic breadcrumbs. In the event of unauthorized cross-border movement, breach of contract, or severe default, dealerships can safely trigger remote engine immobilization directly from the dealer console.

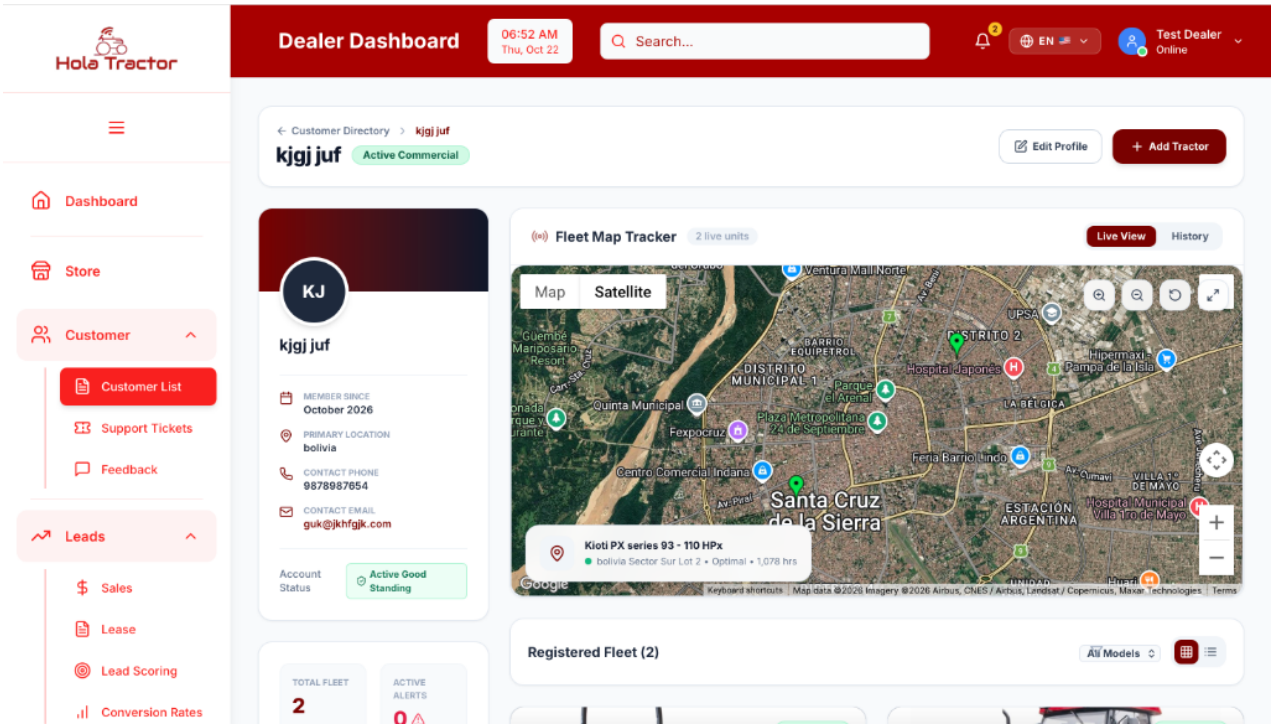

Figure 5.1: Live Satellite Fleet Tracker — Kioti PX 93-110 HP live unit in Santa Cruz de la Sierra.

Asset Protection & Telematics Specifications

Telematics Feature	Technical Specification	Dealer Protection Benefit
Satellite Geofencing	Polygon virtual boundaries defined down to individual farm parcel coordinates.	Instant breach alert if machinery leaves contracted agricultural zone.
Remote Engine Lock	Encrypted relay signal to ECU ignition control; triggers safe shutdown.	Zero loan default write-offs; total asset repossession security.
Battery & Fuel Monitoring	Continuous voltage sampling (optimal >12.4V) and fuel consumption rate.	Detect battery draining and siphoning before equipment dispatch.

Confidential • Holatractor Srl / Inc. • All Rights Reserved

4. Customer Management, Support & Feedback Engine

In modern agribusiness, long-term equipment profitability hinges on customer retention and post-sale service satisfaction. Holatractor's Customer Intelligence module allows dealerships to build exhaustive 360-degree profiles of every farming client, tracking total cultivated land acreage, machinery ownership history, credit score, and historical maintenance tickets.

Customer Directory & KYC	Omnichannel Support Desk	Automated Feedback & NPS
• Unified farmer ledger with NIT/Tax ID • GPS parcel mapping of client farm • Real-time equipment status per account • Financial creditworthiness scoring	• Direct WhatsApp & in-app ticketing • Automatic routing to assigned technician • Response SLA monitoring under 15 mins • Photo & audio diagnostic attachments	• Post-service 5-star rating surveys • Mechanic performance scorecards • AI sentiment analysis on farmer chats • Escrow dispute arbitration support

Dealership Customer Support & Service SLA Commitments

Service Level Indicator	Standard Tier	Priority Dealership Tier	Platform Guarantee
Emergency Field Breakdown	Within 4 business hours	Under 90 minutes (On-site)	AI Automated Mechanic Dispatch
Critical Telematics Alarm	Email notification	Instant SMS + WhatsApp + Alarm	< 60 seconds from ECU trigger
Parts Delivery to Farm	24 to 48 hours	Same-day express delivery	Pre-ordered via predictive wear
Customer Satisfaction Review	Monthly audit	Automated post-job WhatsApp	Minimum 4.5/5.0 dealer threshold

Automated Customer Lifecycle & Retention Workflows

By analyzing telematics usage curves, Holatractor automatically schedules warranty check-ins at 50 hours, routine maintenance alerts at 250 and 500 hours, and trade-in upgrade evaluations when a machine reaches 3,000 operating hours. Dealers receive push reminders to contact customers exactly when their replacement propensity is highest, multiplying equipment repurchases and long-term customer lifetime value (LTV).

5. Inbound Lead Management, Scoring & Conversion Funnels

Never let an interested tractor buyer slip through the cracks. Inbound farmer inquiries from Holatractor's central marketplace and partner campaigns are routed exclusively to the authorized dealer in that municipality. Dealers track lead velocities, stage drop-offs, and won revenue through a real-time conversion funnel.

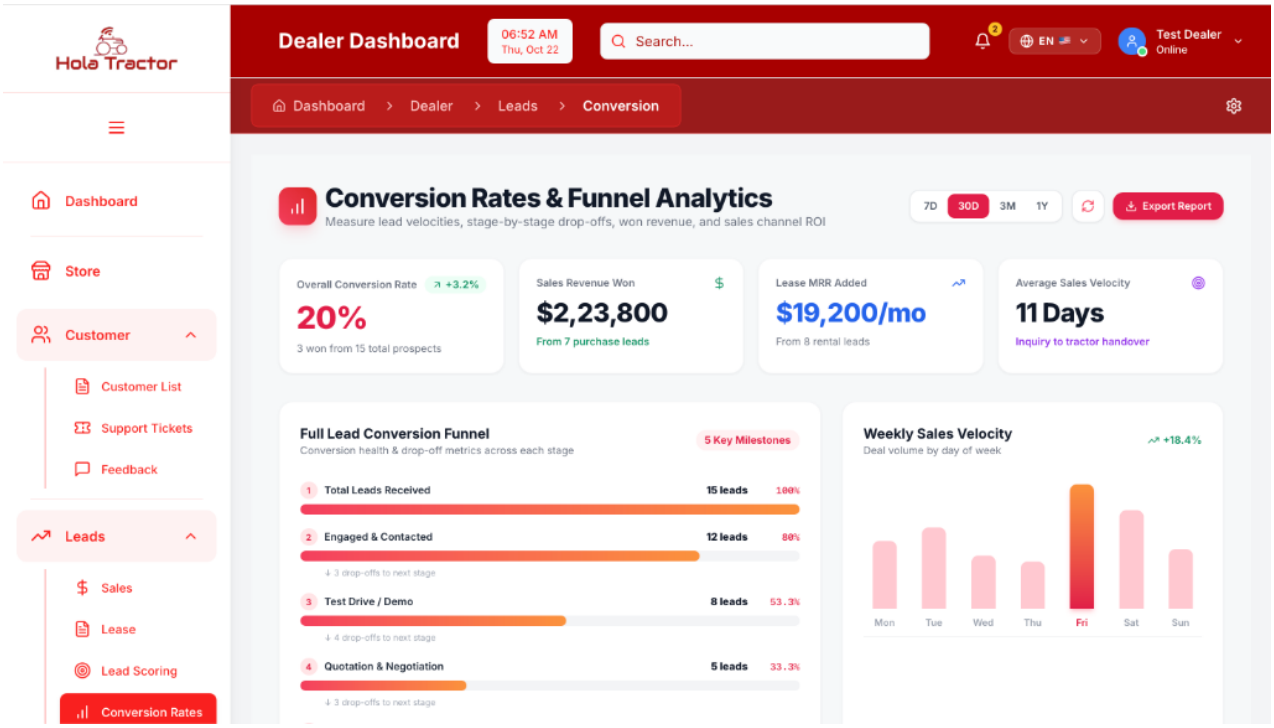

Figure 7.1: Live Conversion Funnel Analytics — 20% conversion benchmark, 11-day sales velocity, and $223k won revenue.

5-Stage Lead Conversion Milestones & Velocity

Funnel Stage	Conversion Milestone	Drop-off Protection Protocol
Stage 1: Lead Received	Inquiry captured from web marketplace, WhatsApp, or field demo.	AI Agent immediately validates farmer phone and credit pre-score.
Stage 2: Engaged & Contacted	80% benchmark engagement rate; dealer rep dials within 15 minutes.	Automated WhatsApp intro with customized PDF tractor spec sheet.
Stage 3: Test Drive / Demo	53.3% progress to physical test drive or on-farm demonstration.	Demo tractor booked with temporary GPS test permit.
Stage 4: Quotation & Negotiation	33.3% advance to formal financing or cash purchase quotation.	In-house financial calculator auto-generates payment plans.
Stage 5: Closed Won & Handover	20% overall conversion rate; $223,800 won revenue from 7 purchases.	Handover inspection logged via app; warranty telematics starts.

6. Omnichannel Marketing Campaigns & Seasonal Promotions

Generate predictable seasonal demand for tractors and implements. Holatractor equips dealership teams with pre-configured multi-channel ad campaigns across Meta (Facebook & Instagram), WhatsApp Broadcasts, Google Local, and on-ground agronomist field days. Track ad spend against tractor bookings in real time.

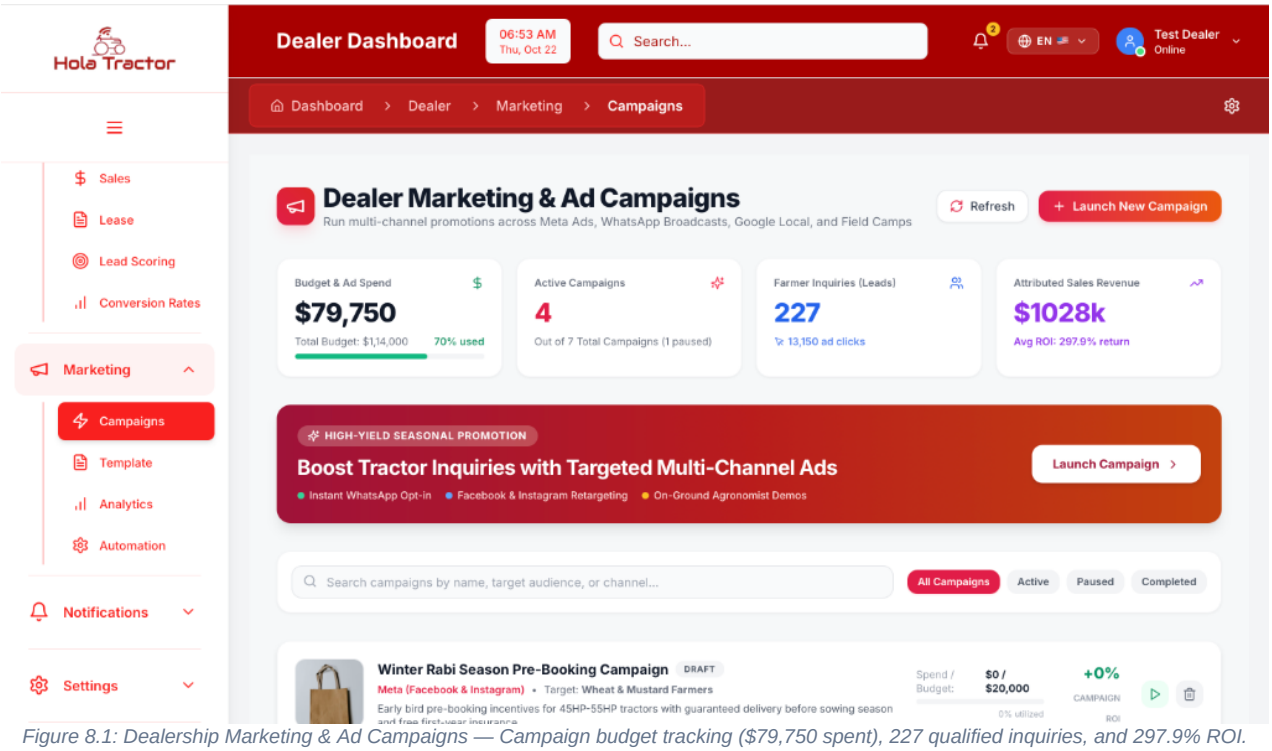

Figure 8.1: Dealership Marketing & Ad Campaigns — Campaign budget tracking ($79,750 spent), 227 qualified inquiries, and 297.9% ROI.

Campaign Channels & Turnkey Promotion Templates

Channel / Tactic	Campaign Strategy & Creative Format	Conversion Performance
Meta Ads (FB & IG)	Targeted tractor carousel ads for soybean, sugarcane, and corn growers within a 150 km radius.	13,150 ad clicks; $3.50 cost per qualified lead
WhatsApp Broadcasts	Opt-in seasonal announcements: pre-season discount codes, 0% financing for 12 months.	74% open rate within 2 hours of broadcast
Winter Rabi Campaigns	Guaranteed pre-sowing delivery incentives for 45HP-55HP utility tractors with free insurance.	4 active campaigns yielding $1,028k sales revenue

Confidential • Holatractor Srl / Inc. • All Rights Reserved

7. AI Agent Workflows & Autonomous Agronomy Dispatch

Holatractor integrates proprietary Agritech AI Agents that operate 24/7 on behalf of your dealership. These intelligent agents bridge the gap between telematics sensors, farmer WhatsApp inquiries, and workshop mechanics. When an engine throws a fault code, the AI Agent diagnoses the issue, checks parts availability in your warehouse, calculates travel time, and suggests a dispatch schedule to your service manager.

Figure 9.1: AI Autonomous Workshop & Mechanic Dispatch — Holographic diagnostics scanner, dynamic mechanic dispatch, and telemetry engine analysis.

8. Real-Time Telematics Notifications & Critical Alarms

Every tractor operating with a Holatractor telematics unit broadcasts sub-second telemetry across cellular and Iridium satellite networks. The notification engine processes over 1,400 sensor frames per second, instantly categorizing events into a four-level priority matrix.

Alarm Level	Trigger Condition	Delivery Channel	Dealership Action Protocol
CRITICAL (Red)	Engine overheating (>105°C), hydraulic pressure drop (<12 bar), geofence breach.	Immediate Push Notification + SMS + Audio Alarm + WhatsApp to Dealer Principal.	Dealer can remotely trigger 30-minute shutdown grace period or remote engine lock.
WARNING (Orange)	Air filter restriction, battery voltage < 11.8V, abnormal idle (>45 min).	Dashboard notification badge + Daily technical digest email.	AI Agent suggests preventative maintenance card to lead mechanic.
OPERATIONAL (Blue)	Tractor ignition ON/OFF, field parcel entered/exited, refueled +50L.	Live Fleet Map visual pin update + Event log entry.	Logged in vehicle history ledger for warranty calculation.
COMMERCIAL (Green)	New inbound tractor lease inquiry, seasonal promotion opt-in, parts reorder.	Sales Rep WhatsApp notification + CRM Lead Queue assignment.	Sales representative prompted for phone follow-up within 15 minutes.

Confidential • Holatractor Srl / Inc. • All Rights Reserved

9. Tractor Parts Inventory & Stock Control

Prevent parts stockouts during peak plowing and harvesting seasons. Holatractor's smart inventory engine tracks fast-moving consumables (oil filters, hydraulic fluid, fan belts, cutting blades) and triggers automated reorders based on active regional telematics hours. Barcode & QR scanners allow warehouse technicians to check in deliveries and allocate parts directly to open repair work orders.

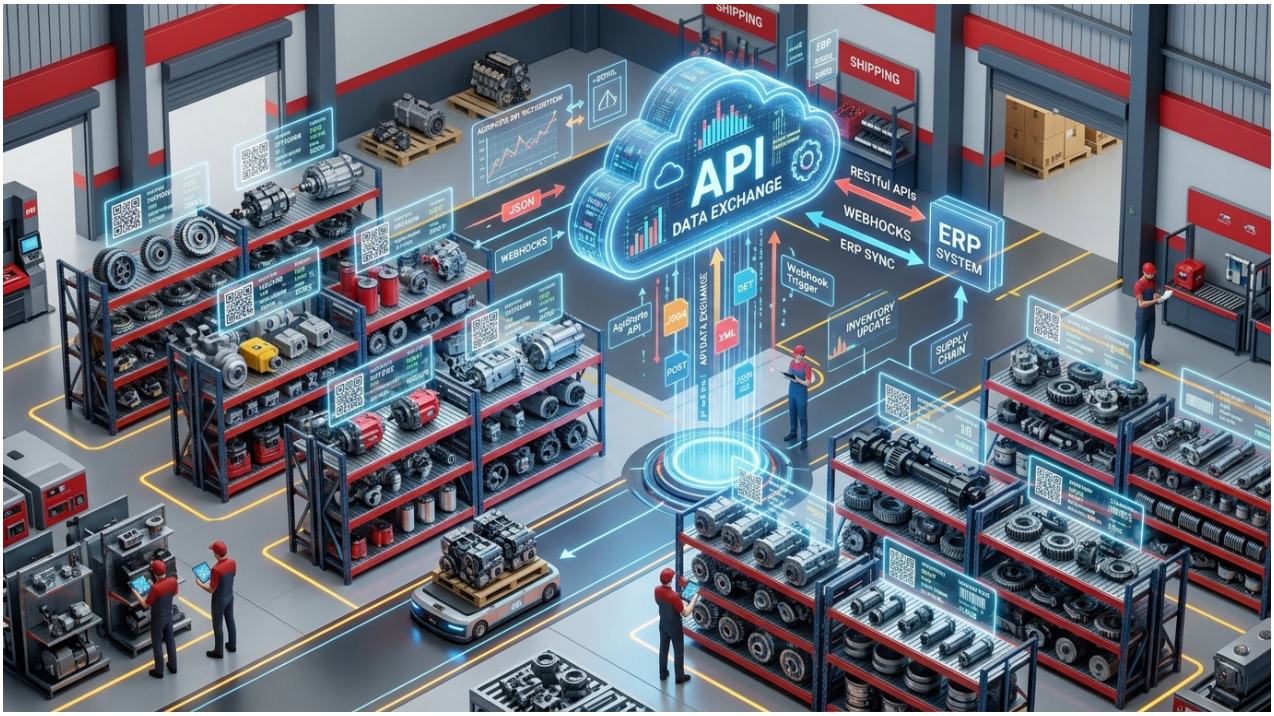

Figure 10.1: Automated Parts Inventory & Cloud ERP Connectivity — RFID / Barcode bin tracking, live restock alerts, and API data exchange.

10. Tractor Scheduled Maintenance & Service Tiers

Modern Common-Rail Diesel tractor engines require strict adherence to maintenance cycles. Holatractor calculates exact operating hours directly from the engine ECU, eliminating human reporting errors. Dealerships schedule and track three standardized service tiers:

Service Interval	Component Inspections & Replacement	Telemetry Automation	Dealer Revenue
Tier 1: 250 Hours **Initial Break-In**	Engine oil & filter renewal, primary fuel filter separator drainage, fan belt tension check, front axle pivot greasing.	Telematics alert at 230 hrs; auto-proposes booking date to farmer via WhatsApp.	$180 - $260 USD (Parts + 2.0h Labor)
Tier 2: 500 Hours **Mid-Season Service**	Full hydraulic filter replacement, transmission oil screen clean, air intake cartridge swap, cooling system pressure test.	ECU fuel efficiency curve comparison against factory baseline.	$390 - $550 USD (Parts + 4.5h Labor)
Tier 3: 1,000 Hours **Annual Major Overhaul**	Complete fluid flush (hydraulic + differential), fuel injector calibration, turbocharger clearance check, valve lash adjustment.	Full health diagnostic PDF certificate generated for resale valuation.	$850 - $1,250 USD (Comprehensive Pack)

11. Mechanics & Workshop Bay Management

Manage both in-house workshop technicians and mobile field-service mechanics. Dealerships assign work orders, monitor mobile truck GPS locations, verify tool certifications, and track actual vs estimated labor hours. Mechanics use the Holatractor Mobile App to capture photos of worn parts, log customer signatures, and instantly bill parts to the customer account.

Confidential • Holatractor Srl / Inc. • All Rights Reserved

12. Custom API Integration & Enterprise Developer Connectivity

Holatractor is built on open enterprise architecture, allowing large dealership networks and machinery manufacturers to synchronize with their existing ERP, CRM, and accounting infrastructure without double data entry. Our high-throughput RESTful API and real-time Webhook infrastructure ensure instant synchronization with SAP, Oracle NetSuite, Microsoft Dynamics, Salesforce, and regional billing systems.

Endpoint Route	HTTP	Function & Payload Description	Sync Direction
/v1/dealers/vehicles	**GET / POST**	Fetch all active tractors or register new inventory with VIN, BLE tag, and telemetry unit ID.	Bidirectional (ERP <-> Holatractor)
/v1/telematics/live-stream	**WSS / GET**	Real-time telemetry stream: GPS coordinates, speed, engine RPM, coolant temp, fuel level.	Outbound (Holatractor -> Dealership)
/v1/vehicles/{id}/immobilize	**POST**	Security endpoint to safely trigger engine ignition lock with encrypted cryptographic token.	Inbound (Authorized Dealer Principal)
/v1/customers/crm-sync	**POST / PUT**	Synchronize farmer credit limits, tax identifiers, contract statuses, and machinery ownership.	Bidirectional (Salesforce / HubSpot)
/v1/inventory/parts-reorder	**POST**	Automated dispatch of spare parts purchase orders to OEM manufacturer when safety stock breached.	Outbound (Holatractor -> OEM Supplier)
/v1/webhooks/dtc-fault	**EVENT**	Immediate webhook trigger when tractor ECU throws critical J1939 fault code with freeze-frame data.	Event Push (JSON Webhook)

Enterprise Developer Integration Specifications

Security Protocol	OAuth 2.0 with Mutual TLS (mTLS), 256-bit AES encryption at rest and in transit.
Rate Limits & Quota	10,000 API requests/minute per dealership license, burstable to 25,000 during harvest peaks.
Webhook Reliability	Automated retries with exponential backoff (24-hour persistence) and HMAC signature verification.
SDK Availability	Official client libraries in Python, Node.js, Go, Java, and C# (.NET Core).
Developer Portal	https://api.holatractor.com/v1/docs — Interactive Swagger / OpenAPI 3.1 Specs.

Dealership White-Labeling & Custom Subdomains

Authorized dealerships can deploy the Holatractor Customer Portal under their own custom domain (e.g., portal.yourdealership.com) with customized brand colors, dealership logos, and localized financing terms. Your farming customers enjoy a world-class branded telematics experience while you maintain complete client relationship ownership.

Official Dealership Partner Terms & Conditions

These Terms & Conditions constitute the binding commercial agreement between **Holatractor Srl / Inc.** ('Holatractor') and the Authorized Dealership Partner ('Dealer'). Acceptance or signature indicates full compliance with our commercial, operational, and data governance standards.

Article 1: Territorial Exclusivity & Dealership Scope

1.1. Holatractor grants the Dealer a non-exclusive (or protected regional exclusive upon meeting Tier-1 volume quotas) right to retail, lease, service, and monitor agricultural machinery equipped with Holatractor telematics units within their designated administrative territory.
1.2. The Dealer agrees to maintain active showroom inventory, designated trained service technicians, and an authorized parts warehouse compliant with Holatractor Dealership Quality Standards.
1.3. Inbound farmer inquiries and marketplace leads originating within the Dealer's designated postal codes or municipal boundaries will be routed exclusively to the Dealer's lead queue.

Article 2: Commercial Margins, Commission Schedules & Revenue Split

2.1. **Hardware & Telematics Margins:** The Dealer is entitled to a 38% gross wholesale margin on all proprietary Holatractor telematics control units, IoT gateways, and BLE asset beacons retailed.
2.2. **Recurring SaaS Commissions:** The Dealer receives an ongoing 20% recurring annual commission on all active software and satellite connectivity subscriptions renewed by customers originally onboarded by the Dealer.
2.3. **Financing & Lease Referral Bonus:** On tractors leased through Holatractor Financial Services, the Dealer earns a 2.5% origination fee calculated on total financed machinery principal, paid within 14 calendar days of lease signing.

Article 3: Telematics Hardware, Installation & Service Level Agreements (SLAs)

3.1. Telematics devices must be installed by Holatractor-certified technicians in strict accordance with OEM wiring harnesses. Improper CAN-bus tapping causing vehicle malfunction remains the liability of the installing workshop.
3.2. Holatractor guarantees a 99.9% platform availability and satellite telemetry uptime SLA, excluding scheduled maintenance announced with at least 48 hours advance notice.
3.3. Remote engine immobilization commands are protected by multi-factor cryptographic authentication and must comply with applicable regional safety protocols (e.g., machinery must be stationary or decelerated safely before ignition cut).

Article 4: Data Privacy, Machinery Ownership & Agronomic Security

4.1. All machine agronomic telemetry (yield data, soil moisture readings, field boundary coordinates) remains the exclusive property of the farmer machinery owner. The Dealer and Holatractor are granted a limited license to process telemetry solely for diagnostic, maintenance, anti-theft, and warranty compliance purposes.
4.2. Holatractor agrees never to commercialize, sell, or disclose proprietary dealership client rosters or pricing lists to competing dealerships or third-party brokers without explicit written consent.

Article 5: Escrow Clearing, Invoicing & Settlement Cycles

5.1. Customer online bookings, deposit escrows, and lease down-payments collected through the Holatractor platform are held in a segregated banking escrow account and disbursed to the Dealer on a bi-weekly cycle (1st and 15th of each month).
5.2. Settlements are issued in official currency (Bolivianos - BOB or United States Dollars - USD) via direct electronic transfer.

Article 6: Term, Performance Audits & Termination

6.1. This agreement remains in effect for an initial period of 24 months, automatically renewing for successive 12-month periods unless either party provides 60 days advance written notice of non-renewal.
6.2. Holatractor reserves the right to suspend platform access if customer satisfaction ratings fall below 3.8/5.0 stars or unremedied warranty breaches persist beyond 30 calendar days.
